

Model 2500 Cutoff Saw

Accuracy and Power.

The Pendu Model 2500 Cutoff Saw is the more powerful upgrade of our Model 2400 Cutoff. Able to handle logs and cants up to 12" x 12" can be installed as either an independent unit or as part of a complete system. The 2500 has the capability to turn, end trim, cut to length and/or reject any undesired blocks, all

with a single operator using a single console.
