

# M4300S Gang Resaw

## Redesigned for increased production.

Completely redesigned from the ground up, the new 4300S Gang Saw incorporates more than 19 improvements to power through your toughest jobs. Able to handle material up to 6" high by 12" wide, the 4300S features an inboard cant sizer powered by a 30 HP TEFC motor to remove up to 1" off the top. Nine chromed top feed rolls are individually adjustable. Positive automatic chain infeed system with chromed support tables before and after the saw blades.
