

Model 6700P Stringer Notcher

Increased pallet production performance.

The Pendu Model 6700P features rugged components and fully-adjustable 9" wide notch cutters. Driven by powerful 30 HP ODP motors, the cutter heads are mounted overhead for increased ease in maintenance and adjustment. Notching the stringer from the top also provides a more stable stringer when used with the Pendu 4600N Stacker. For in line use choose the Pendu 6400 Notcher.

Specifications
