

Air Operated Trim Saw

Simple Operation. Rugged Construction.

The Pendu Air Trim Saw is the simple solution for end cutting cants, railroad ties, cutting blocks or wherever you need a reliable, easy-to-use trim saw. Able to handle material up to 10" x 16", the Air Trim Saw features automatic air clamps to hold material firmly in place for accurate cutting along with in and out feed idler rolls for fast, easy feeding. Constructed of heavy-duty welded, all-steel components, the Air Trim is built to stand up to hard day-to-day use. Ready to go to work the day it's delivered, simply hook up the power, plug in the air and you're ready to go.
