

Model VS-1 Board Stacker

More Yield. Less Movement

The Pendu VS-1 Vertical Pallet Board Stacker is designed and manufactured to perform more work with less movement than other stackers on the market. By stacking several boards vertically before moving them into position for placement, the VS-1 increases efficiency -- while minimizing the number of moving parts. With the VS-1 you get a machine that works faster, requires less maintenance and provides a higher level of reliability.

VS-1 Board Stacker Specifications

Overall Dimension	23' X 8'3" X 9'3"
Maximum Board	72" Length
Board Thickness	1-1/2" Maximum 3/8" Minimum
