

AIR OPERATED TRIM SAW

Simple Operation. Rugged Construction.

The Pendu Air Trim saw with a capacity to handle material up to 10" x 16" is a reliable, easy to use solution for end cutting cants, rail ties and lumber. Constructed of heavy-duty welded all steel components, the Air Trim Saw is built to stand up to hard day-to-day usage. The Air Trim Saw comes standard with a set of air actuated clamps to hold the material firmly in place for accurate cutting. Infeed and outfeed idler rolls are available for fast and easy feeding. The Air Trim Saw is ready to go to work the day it's delivered, simply hook up the power, plug in the air and you are ready to start cutting.
