

4700BP HIGH SPEED BOTTOM-UP STACKER

STACKING SPEED UP TO 20 LAYERS PER MINUTE

Stacking speed up to 20 layers per minute with our 4700BP High Speed Bottom-Up Stacker. The bottom-up feed design is lower to the ground than an over the top stacker for easier access to the stick placer and the infeed. The 4700BP can handle material from 30 inches to 72 inches long, 1 1/2 inches to 5 1/2 inches wide, and 3/8 inches to 2 inches thick. The stacker can be used with or without an optional pit.

Call us today to find out how our 4700BP High Speed Bottom-Up Stacker can speed up your production!
