

# HIGH SPEED SPLITTER SAW

## CENTER SPLIT BOARDS AT SPEEDS UP TO 300 FPM

Center split boards at variable speeds up to 300 FPM! Pendu's High Speed Splitter Saw handles boards from 1" to 3" wide with 3 1/2" to 6" heights and can be adjusted to run both hard and soft wood. Two 75 HP electric motors power boards through hardened and chromed rollers and the High Speed Splitter Saw is built to last with 3/4" thick steel box frame construction.

Call us today to find out how the High Speed Splitter Saw can give you more production!
