

# 600 SERIES BOARD EDGER

## RUGGED AND EASY TO MAINTAIN

The Pendu 600 Series Edger is available in almost any custom configuration and option you want to handle the widest variety of material sizes. All are ruggedly engineered and manufactured to stand up to the toughest mill operation. For ease of maintenance, Pendu 600 Series Edgers are designed with single panel access - simply lift the top cover to access saws or the side panel to access the arbors. The saw blades can be sharpened right on the unit, without the need to remove them. Pendu 600 Series Edgers are the most flexible, efficient machines on the market today.
